Administration**

Office of Airport Safety and
Standards

800 Independence Avenue, SW
Washington, DC 20591

MAY - 8 2013

Dear Industry Representative:

The Federal Aviation Administration (FAA) posted the Draft Advisory Circular (AC) 150/5300-14C, Design of Aircraft Deicing Facilities, to interested industry associations to obtain comments and recommendations of actions to be taken.

Please review this draft and submit comments as appropriate. Additionally, please provide justification for all comments about issues you may have with the draft and recommended modifications. We may revise the final document as a result of comments received and further review by the Office of Airport Safety and Standards.

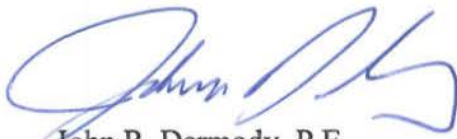

This AC provides standards, specifications, and guidance for designing aircraft deicing facilities. We request concurrence with the enclosure. We will consider comments received by July 9, 2013, for inclusion in the advisory circular.

Submit comments on the provided INDUSTRY REVIEW COMMENTS MATRIX which references the paragraph in question with your recommended change.

Please email the completed MATRIX to George Legarreta at george.legarreta@faa.gov.

You will find a PDF version of the draft advisory circular and a WORD version of the MATRIX on the FAA website at: [http://www.faa.gov/airports/resources/draft advisory circulars/](http://www.faa.gov/airports/resources/draft%20advisory%20circulars/).

Sincerely,

John R. Dermody, P.E.
Manager, Airport Engineering
